

How to ride a bicycle in a less risky manner in Japan

International Center and IEAS will host lectures for international students.

The theme of the lecture is as follows in English, “How to ride a bicycle in a less risky manner in Japan”

By the Road Traffic Law, a bicycle is treated same as a vehicle. You must obey the bicyclists’ rule, or penalty will be imposed on. Please be alert and keep its danger always in your mind when riding a bicycle as much as driving a car.

Anyone is more than welcome to join the session. Feel free to contact us for any inquiries.
